GENERAL INFORMATION

With our extensive range of standard colors, your patio cover will seamlessly complement the surrounding architecture. The powder coating on our aluminum profiles not only delivers a stunning finish in a variety of styles, but also ensures long-lasting protection against the elements. In addition, all Renson products receive our Seaside Quality pre-treatment as standard, providing extra durability in even the harshest environments.

Seaside Quality A

Seaside Quality A is a pre-treatment applied during the powder coating process, in which at least 2 g/m² (0.0066 oz/ft²) of the surface layer is removed before coating. This additional step provides enhanced protection for our aluminum profiles against harsh environmental conditions, including coastal climates and heavy industrial areas.

Difference between Seaside Quality A and pre-anodization

Pre-anodization is a pre-treatment that protects aluminum profiles for use in extremely aggressive environments. This process is carried out on a dedicated anodization line, rather than directly on the powder coating line. Once pre-anodized, profiles must be handled with great care and moved quickly to the powder coating line. They cannot be powder-coated immediately without additional processing, as this would compromise the integrity of the anodization layer. For this reason, we do not offer pre-anodization for our outdoor products. Seaside Quality A, on the other hand, is integrated directly into the powder coating process and consistently delivers exceptional protection against aggressive environments, such as coastal and heavy industrial areas.

Coating finishes

Three powder-coating finishes are available, depending on the desired appearance:

- Textured coating
- Gloss (gloss level 70%)
- Matt (gloss level 30%)

COLOR AND STYLE ADVICE

Textured coating

Renson recommends a textured coating for frames and columns to achieve a sleek, contemporary architectural look. This finish is more resistant to visible wear, scratches are less likely to occur, and when they do, they are far less noticeable.

Tip:

For ease of maintenance, blades can be powder-coated in either a matt or gloss finish. Always use the Renson Maintenance Set to clean your cover effortlessly and safely.

Bicolor

Choosing a lighter color for the blades and a darker color for the frame and columns can create a brighter, more open atmosphere beneath your patio cover. Light-colored louvers reflect more sunlight and heat, which helps keep the space cooler and, in wall-mounted covers, allows more natural light to enter the home. Dark-colored blades, by contrast, absorb more solar heat.

The bicolor option is available at standard pricing.

Outdoor Top 10

Our Outdoor Top 10 brings together the most popular colors for outdoor living spaces. This curated selection of standard colors reflects the latest design trends, making it easier to choose the perfect finish for your project. The Outdoor Top 10 evolves with changing trends and may be updated from year to year.

Available for all products coming from Belgium - Now available also for the Camargue US production!

You can explore our Top 20 textured coating colors in our color sampler.

Order it on RIO with code 2001040

Wooddesign (only made in Belgium)

Achieve the natural, warm look of wood with all the durability and low-maintenance benefits of aluminum. Our Wooddesign finish is available for the roof blades of our patio covers as well as the blades in our aluminum Loggia panels. Currently only made in Belgium, not in the US.

- Colorfast powder coating with wood grain texture
- Low maintenance
- Available in three designs:
 - White Oak
 - Natural Oak
 - Walnut
- Five-year warranty on color and gloss

Applicable to:

- Aluminum Loggia Paro / Privacy blades *
- Camargue **
- Camargue Skye **
- Algarve **
- Aero **
- Aero Skye **

* Not applicable to Loggia Plano blades.

** Not compatible with Lineo Luce (glass blades), Lineo Fix, or Lineo Heat. The drips are powder-coated in a solid color matching the base Wooddesign color (without wood grain texture). The fixed blade or filler section will match the frame and column color, as Wooddesign is not available for these components.

- Frame and blades RAL 9010
- Fixscreens N-0202
- Loggia Plano RAL 9010
- Curtains, Fine woven Ecru
- Glass wall

TIGER - 029/10674

RENSON STANDARD COLORS

Applicability

Our patio covers (all coming from Belgium and Camargue made in TX) covers are available in 20 textured coating colors at standard prices. Any surcharge for non-standard colors is applied only once per order, per color (see price list for details). For patio covers produced in Belgium, a wider range of standard colors is available.

	Renson standard colors			Other colors
	Texture	Matt	Glossy	
Frame & columns	Standard price	Surcharge	Surcharge	Surcharge
Roof blades	Standard price	Surcharge	Surcharge	Surcharge

The table above applies to all accessories ordered together with the patio cover.

- Lineo LED, Lineo Luce, and Lineo Fix – finished in the same color as the roof blades.
- Aluminum Loggia blades – available in either the frame and column color or the roof blade color.
- All other accessories – finished in the same color as the frame and columns.

Please note that not all accessories are produced in the United States. For a detailed breakdown of U.S. production capabilities, scan the QR code.

Retrofit orders

	Renson textured coating	Matte, glossy or other colors
Integrated Fixscreen (Camargue)	Standard price	Surcharge
Algarve Fixscreen	Standard price	Surcharge
Lapure Fixscreen	Not possible as retrofit order	
Loggia frame	Standard price	Surcharge
Aluminum Loggia blades	Standard price	Surcharge
Glass sliding panel	Standard price	Surcharge
Linus wall *	Standard price	Surcharge
Linarte wall **	Standard price	Surcharge
Triangle	Not possible as retrofit order	
Lineo LED **	Standard price	Surcharge
UpDown LED	Standard price	Surcharge
Colomno LED	Not possible as retrofit order	
Lapure LED	Not possible as retrofit order	
Beam Heat & Sound	Standard price	Surcharge
Lineo Luce***	Standard price	Surcharge
Lineo Fix **	Standard price	Surcharge
Protecto	Standard price	Surcharge
Waterproof wall-mounting	Not possible as retrofit order	

* Retrofit orders are only possible if reinforced mounting bases are installed and the product is supplied from Belgium.

** Retrofit orders only possible for Camargue and from Belgium

*** Retrofit available from Belgium

Top 10 - Standard colors for Algarve / Aero - made in TX

The colors and the corresponding powder codes can be reviewed for change yearly.

Standard colors can be found in RIO by ticking check box "standard".

Color codes in bold: available in the Outdoor Top 20 color sampler.

Please note that while the RAL color remains the same, the powder code and supplier used in the U.S. differ from those in Belgium. As a result, there may be a slight variation in tone. However, the difference is imperceptible, so it is perfectly fine to use the shared Top 10 colors within the Top 20 RAL selection as a reference.

This is why the Top 20 standard colors now available for the Camargue differ from the Top 10 standard colors offered for the Algarve and Aero models.

Underlined color codes: available in Shop in Shop RAL colors display.
