WE ARE PROUD OF OUR HISTORY

A healthy living environment for everyone: that is the mission of our **Belgian family business**. That's why our baseline is '**Creating Healthy Spaces**'. We strive to achieve this in homes, offices, apartments, schools and care institutions with a combination of ventilation, sun protection and outdoor living. This focus on total concepts grants comfort, energy efficiency, endless personalization possibilities and minimalist design.

For more than 110 years, Renson® — and its 1,200 employees worldwide — has been working as a trendsetter for a healthy indoor climate and comfortable outdoor living. What began in 1909 purely as a production company has since evolved into an **innovative** and **internationally** renowned thought leading company that is always one step ahead of the future.

Renson® guarantees **quality** through local production of finished products for the Belgian market and system solutions for the international market. Thanks to these system solutions, our international dealers can produce the products locally and quickly bring them to the market.

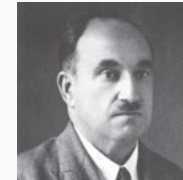

Internationally, 10,000 constructors, planners, architects, and investors work together with Renson®. To reach consumers, we have a **global network** of 230 Ambassadors who sell, assemble, and service our products.

1. Log in at rio.renson.eu

2. Press 'New Order' on top and choose 'new project' and add a reference

The screenshot displays the Renson web application interface. At the top, there is a navigation bar with the Renson logo, a search bar, and links for Dashboard, My projects, Conversations (195), Info, Support, and a user profile (TU Test User). Below the navigation bar, there are three main buttons: 'New Quote', 'New Order' (highlighted with a purple underline), and 'New Service request'. A progress indicator below these buttons shows five steps: 1. Project information (active), 2. Order information, 3. Product selection, 4. Delivery options, and 5. Order overview.

The main content area is titled 'Project information' and contains a form with the following elements:

- A dark blue header with the text 'YOUR NAME HERE' and a close icon (x) and a dropdown arrow (v).
- A radio button selected next to the heading 'New project', with the description: 'A new project will be created to which this order will be added.'
- A text input field labeled 'Project reference'.
- A radio button next to the heading 'Add to existing project', with the description: 'Choose an existing project to which your quote should be added.'

3. Add extra reference info to the project
