ALLGEMEINE INFORMATIONEN

Dank der breiten Palette an Standardfarben fügt sich die Überdachung immer nahtlos in den Stil der umgebenden Architektur ein. Die Pulverbeschichtung der Aluminiumprofile sorgt nicht nur für ein ästhetisches Erscheinungsbild in verschiedenen Verarbeitungen, sondern bietet auch dauerhaften Schutz gegen äußere Einflüsse. Darüber hinaus werden Renson-Produkte standardmäßig mit einer Seaside-Quality-Vorbehandlung versehen.

Seaside Quality A

Seaside Quality A ist eine Methode der Vorbehandlung in der Pulverbeschichtungsanlage, bei der mindestens 2 g/m² vor der Pulverbeschichtung aufgebracht werden. Diese zusätzliche Vorbehandlung schützt Aluminiumprofile vor aggressiven Umgebungen wie Küstengebiete, Schwerindustrie usw.

Unterschied zwischen Seaside Quality und Voreloxierung

Die Voreloxierung ist eine Vorbehandlung, die die Aluminiumprofile gegen sehr aggressive Umgebungen schützt. Die Voreloxierung wird in einer separaten Eloxiereinlage durchgeführt, nicht direkt in der Pulverbeschichtungsanlage. Nach der Voreloxierung müssen die Profile sehr vorsichtig behandelt und schnell in der Pulverbeschichtungsanlage verarbeitet werden. Die Profile von Terrassenüberdachungen können jedoch nicht sofort und ohne weitere Bearbeitung pulverbeschichtet werden. Hierdurch kann die Qualität der Voreloxierung nicht garantiert werden. Daher bieten wir diese Vorbehandlung für unsere Outdoor-Produkte nicht an. Seaside Quality A bietet auch bereits einen ausgezeichneten Schutz vor aggressiven Umgebungen.

Lackverarbeitung

Je nach gewünschter Ausstrahlung sind 3 Arten der Pulverbeschichtung möglich.

- Strukturlack
- Glänzend (Glanzgrad 70 %)
- Matt (Glanzgrad 30 %)

FARB- UND STILBERATUNG

Strukturlack

Renson empfiehlt Strukturlack für den Rahmen und die Pfosten, um einen architektonischen, modernen Look zu erhalten. Außerdem ist Strukturlack weniger anfällig für Kratzer und sind diese auch weniger sichtbar.

Tipp:

Aufgrund der einfachen Wartung können die Lamellen in einer Pulverlack mit matter oder glänzender Oberfläche gewählt werden. Verwenden Sie immer das Renson Maintenance Set für eine reibungslose und sichere Reinigung der Terrassenüberdachung.

Bicolor

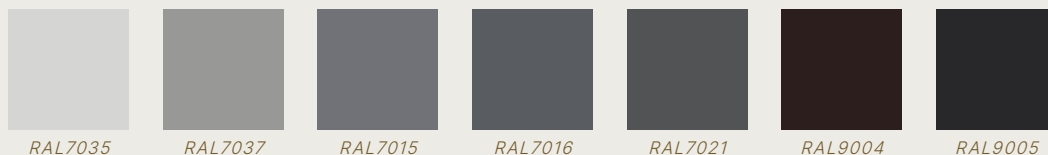

Wenn die Lamellen in einer helleren Farbe als der Rahmen pulverbeschichtet werden, wird unter der Terrassenüberdachung mehr Offenheit und Licht geschaffen. Ein helles Lamellendach reflektiert die Wärme der Sonne besser und sorgt für einen besseren Lichteinfall ins Haus, z. B. bei einem Anbau, ein dunkles Lamellendach absorbiert mehr Sonnenwärme.

Die Bicolor-Option ist zu einem Standardpreis erhältlich.

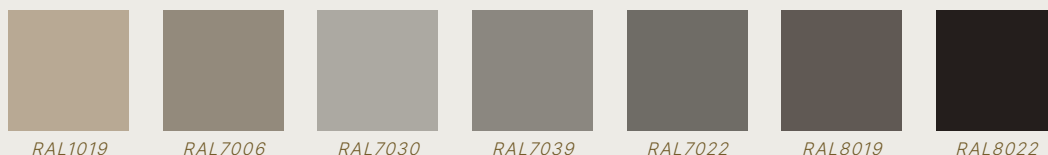

Outdoor Top 20

Die beliebtesten Outdoor-Farben sind in den Top 20 für den Außenbereich zusammengestellt. Diese Auswahl an Standardfarben spiegelt die neuesten Farbtrends wider und vereinfacht so die Farbauswahl. Die Top 20 im Outdoor-Bereich folgt der Entwicklung der Trendfarben und kann jährlich geändert werden.

Wooddesign

Schaffen Sie die natürliche Wärme von Holz, aber mit allen Vorteilen und der Pflegeleichtigkeit von Aluminium. Die Ausführung Wooddesign ist an den Dachlamellen der Überdachungen und an den Lamellen der Aluminium Outdoor Loggia-Paneele möglich.

- Farbechte Pulverbeschichtung mit Holzmaserungsstruktur
- Wartungsarm
- Erhältlich in 3 Ausführungen:
 - Weiße Eiche
 - Eiche Natur
 - Walnuss
- Garantie auf Glanz und Farbe: 5 Jahre

Anwendbar bei:

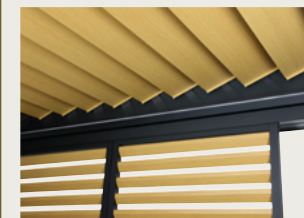

- Aluminium Loggia Paro / Privacy Lamellen*
- Camargue**
- Camargue Skye**
- Algarve**
- Aero**
- Aero Skye**

* Nicht geeignet für Loggia-Plano-Lamellen.

** Gilt nicht in Kombination mit Lineo Luce (Glaslamellen), Lineo Fix oder Lineo Heat.

Die Tropfkanten werden in einem einheitlichen Farbton entsprechend dem Basislack Wooddesign (ohne Holzmaserung) lackiert. Die feste Lamelle/Restlamelle folgt der Farbe des Rahmens und der Pfosten (kein Wooddesign möglich).

RENSON STANDARDFARBEN

Anwendbarkeit

Die Überdachungen sind in ca. 150 Strukturlackfarben zum Standardpreis erhältlich.

Die Lamellen sind zudem in matter oder glänzender Ausführung zum Standardpreis erhältlich.

Zuschläge für Nicht-Standardfarben werden nur einmal pro Auftrag und Farbe berechnet (siehe Preisliste).

	Renson Standardfarben			Andere Farben
	Textur	Matt	Glänzend	
Rahmen & Pfosten	Standardpreis	Aufpreis	Aufpreis	Aufpreis
Dachlamellen	Standardpreis	Standardpreis	Standardpreis	Aufpreis

Alle Zubehörteile, die zusammen mit der Überdachung bestellt werden, sind in der obigen Tabelle aufgeführt.

- Lineo LED, Lineo Luce und Lineo Fix folgen der Farbe der Dachlamellen.
- Die Aluminium Loggia-Lamellen können in der Farbe des Rahmens und der Pfosten oder in der Farbe der Dachlamellen bestellt werden.
- Alle anderen Zubehörteile sind in der Farbe des Rahmens und der Pfosten gehalten.

Nachbestellungen und separate Bestellungen
